MEMORANDUM FOR: Deputy Assistant Director, Current Intelligence  
SUBJECT: Rumored "High Echelon Watching System"  
REFERENCE: Memorandum for the Record, from Chief/CIA Watch  
Officer Section, dated 13 November 1952

1. You referred the referenced memorandum to AD/IC, inquiring whether there was anything the CIA Watch needed to know about the subject.

25X1A9A 2. OIC has inquired of the Office of the Executive Assistant to the DCI [ ] and has been informed that no such system is known to anyone in the Administration Building. We have also inquired of OCD, which did not have available either of the supposed JCS papers. OCD did indicate, however, that [ ] 25X1A9A (currently the Agency's Emergency Planning Officer, 1046 I Building) was custodian of papers similar to these. We referred the referenced memorandum to [ ], who states that he does not have the memorandum, but that he is dealing in such matters, with (among others) 25X1A9A [ ] of OCI.

25X1A9A 3. We regret taking so long to find out so little, but suggest that OCI pursue the matter with [ ] and feel free to ask OIC for such further assistance as may be necessary.
